PROJECT: DCT WATER'S EDGE  
LOCATION: LEWISVILLE, TX

Building the future

100

NO SMOKING

# DCT WATER'S EDGE

## Lewisville, Texas

**SECTOR:** Industrial

**Scope of Work**  
ACM

**Challenges**  
Custom reveal strips replacing traditional sealant

**Summary**  
For this project, Auzmet installed ACM panels on the canopy portion of the building, with a custom approach to the reveal strips that replaced standard caulking. This adjustment presented a challenge in terms of design and installation, but the team effectively implemented the custom solution to meet the architect's specifications.
